**“People become really quite remarkable when they start thinking that they can do things. When they believe in themselves they have the first secret of success”. My vision for Pilot is for us to believe in ourselves. We need to look at our heritage, look at what made us successful. How did the pioneer Pilots grow membership? I believe their first step was building strong, working clubs. Each new club chartered was nurtured and built into a strong working unit of friendship and service and each new Pilot was made a part of the club. We need to start today building our clubs and providing leadership and orientation for new Pilots. There is a whole new age of Pilots waiting to lead us forward and we need to make sure we provide our clubs the tools they need to attract and retain these new members. It is the time to renew our enthusiasm for Friendship and Service. It is the time to look at our communities for projects that can and will attract new members. It is the time for us to market Pilot, not only at the club level, but at the District and most certainly at the International level. It is the time for us to say yes we can and yes we will. The future of Pilot is in our hands and my vision is for us to work together to build a bridge for those wonderful Pilots coming behind us.**
