Pilots change lives. We work to improve the quality of life in our local communities.

We must continue to work together to improve the quality of life. Lives are truly changed by the work we do. We are vital components of our communities.

To continue to enhance the quality of life in our communities, we must keep our focus on membership growth. It is my desire to assist with the development of training programs which will enhance the leadership potential of Pilots, while also providing an emphasis on membership and growth.

We will also enhance our growth by our continued exposure with our signature project. The slogan "protecting your brain for life" has been a favorite saying for all of us. We need to continue to share with our communities the importance of protecting your brain. We are making significant impacts on society.

I am excited about the future of Pilot International and together we will continue to grow and improve our visibility. Helen Keller once said "that the best and most beautiful things in the world cannot be seen or even touched. They must be felt with the heart." As Pilots, our hearts are filled with passion about what we do. So, let's just keep talking about Pilot and remember life is for the giving.
