

Dear Pilot Club Members;

Pilot Club International has a Master General Liability policy that provides liability protection for all the U.S. Pilot Clubs for their normal activities. Events like the annual conference, the educational programs, the fundraising walkathons, bake shows, dinners, etc. are all covered by this Master policy. Pilot has a sample certificate of insurance that can be used as proof of coverage for any outside parties that request such proof. This is attached to the main website. In the event an outside party requires to be listed as an actual certificate holder or as an additional insured under the Pilot policy, we will need to know who they are (including name for certificate), what they are doing for Pilot (such as proving a building location for us to use), a contact name, an e-mail address and a physical address. Certificate requests should be sent to certs@th-ins.com

In the event a Club has a Pilot event that involves alcohol (serving, selling or allowing) or something unusually riskier than normal Pilot operations (such as kayaking, trains, planes, amusement rides, etc.) that Club will likely need to purchase a "Special Events" policy to cover that event. A special event policy can be written for a one day event or a multi day event. If you have an event that may be out of the ordinary, please e-mail Alison Dixon adixon@th-ins.com and/or Cole Tidwell colet@th-ins.com. We will send you a one page questionnaire to complete so we can determine if a separate policy is needed and if so, the cost of the policy.

Thank you!
Cole Tidwell
