Another Pilot Year Begins.

As Pilot year 2021-2022 begins, I just got back from Atlanta where Pilot International celebrated its 100th anniversary convention.

Three members of the DAC participated in the Council of Leaders. We came home with a lot of information to share and use to help our District in this next year.

This is the beginning of our **100 successes** for this year. Remember to send your club's successes to me as they occur. Pictures are welcome as well.

Northeast Potomac had a great number of successes at Pilot International in Atlanta. A fabulous start to the year. The successes are listed on page 2 of this bulletin.

The Pilot International Convention was a great time. The workshops were informative and getting to see old friends and make new ones – in person – was wonderful. Everyone seemed to have a good time. Some Pilots even visited Pilot Headquarters in Macon. At times, the weather didn't cooperate with the trip, visitors couldn't roam the gardens, but they enjoyed themselves.

I do have some unfortunate news to share. As of June 30, the Pilot Club of Greater Long Island has turned in their charter. Happily, many members of that club have transferred membership to the Pilot Club of Patchogue.

Keep an eye on your email for Fall Workshop registration. Mark your calendars for October 2, 2021. Workshop is in Manheim, PA. Lots of fun and friendship along with some training. A fun weekend of seeing friends again.

Looking forward to seeing you soon.
