

## **The Helmet People Matching Game**

The Helmet People Matching Game is a game where cards are placed face-down and players turn over two at a time trying to find matching cards. If a match is made, those cards are picked up by the player. The winner of the game is the one with the most matched pairs.

The following pages allow you to make the game pieces. They can be printed on card stock or full-page labels and then cut into squares. The labels can be placed on cardboard or other materials such as old game cards. There are five (5) pages to make the face of the game pieces. The backs of the game pieces can be made using the last page.
